

Transfer Mattress Black

Transfer Mattress Black is designed specifically for the funeral market is an evolution of the classic acute mattress used in the ambulance services.

Made of the high quality, is compatible with most funeral stretchers on the market, has 6 pieces of ergonomic handles on each side of the mattress, makes the mattress easy handle and to lift and carry a body. The back of the mattress is equipped with non-friction glass fiber provide a good glide function for easy transfers and sliding of the mattress and body e.g. from a bed to stretcher and in tight spaces where the stretcher does not reach slide the mattress to the stretcher. Transfer Mattress can advantageously be used in cooperation with Step by step belt kit for sliding.

The handles can handle loads up to 250 kg, all seams are fully welded for the best hygiene and easy to clean.

Along with Step by Step, this becomes an unbeatable ergonomic solution that can handle high loads up to 250kg.

The 6 handles on each side can be folded in under the mattress when lying on top off a stretcher and be folded out when needed.

Transfer Mattress has been used in the ambulance service for many ears with very good experience of reducing the hassle, decrease forces required in evacuation and patient handling, ergonomic and handy. The construction is very durable and strong.

Specifications:

PVC- Polyester fibre flame retardant
3,5 cm polyether foam
