

AB GERMA®

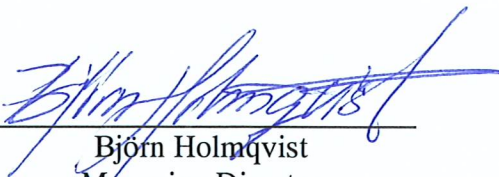

Environmental policy

AB Germa aims to show its environmental commitment by pursuing active environmental efforts to reduce and prevent negative environmental impact.

This means that we shall:

- Make the environmental work a natural part of the business.
- Determine the overall and detailed environmental objectives of the business.
- Prioritize renewable resources, recycling and low energy consumption.
- Prevent contamination by sorting and participating in organized waste management.
- Require our suppliers of products and services to work environmentally conscious.
- In all respects comply with applicable environmental laws and other custom requirements and customer requirements.
- Prioritize our employees' education in environmental knowledge and how our business and our products affect the environment.
- Inform our customers how to handle our products from the environmental point of view after the period of use. How the products should be destroyed with environmental considerations.

Kristianstad, 2010-03-31

Björn Holmqvist
Managing Director
