

AB GERMA®

VACUUM PILLOWS

PRODUCT SHEET

Application

Patient positioning and fixation!

Germa Vacuum Pillows provide customised, semipermanent stabilisation, positioning and fixation of a patient in a multitude of situations, for example, dental- eye- hand and general surgery, fixation of fractured limbs, fixation at X-ray etc.

The Vacuum Pillow forms a firm support for any part of the body, the weight evenly distributed, reducing the risk of pressure points. Can be closed to accommodate structural deformities and can also be used for temporary posture correction.

VACUUM PILLOWS

FLAME RETARDANT

HF-VELDED SEAMS
