

AB GERMA®

VACUUM SPLINTS BLUE LINE

PRODUCT SHEET

Germa Blue Line of splints:

Blue Line is Germa's updated Low-price range of splints, however, regardless of lower price they still have Germa's high quality and long-life.

With the new Blue Line we wanted to make it as flexible as possible in respect to your needs. Therefore we have three standard sets for you to choose from to meet your needs.

The Blue Line splints are intended and designed to deliver stabilisation to injured patients during transport. They are suited for fixation of patients with hand, wrist, arm, leg, shoulder and/or hip injuries.

The splint moulds around the individual fracture giving an absolute optimal and very comfortable support to the patient.

PRODUCT SPECIFICATIONS

Approved according to European Standard EN 1865 and EN 1789
Compliant to MDR 2017/745 Class 1 Medical device
